Operations Builder | Location Management | Workflow Systems

Austin, Texas (open to San Francisco) | los124506@gmail.com | (956) 251-0708 | linkedin.com/in/carlos-castro-4a79a4323 | github.com/CarlosCastroWrk

PROFESSIONAL SUMMARY

Business Administration and Marketing senior with hands-on experience leading field operations, supporting location management, and building software around real operational workflows. Combines frontline execution, team coordination, process improvement, customer-facing operations, and AI-assisted development to identify bottlenecks and translate them into practical systems.

CORE SKILLS

Location management, business operations, field operations, workflow design, process improvement, quality control, team coordination, SOPs, stakeholder communication, product discovery, systems thinking, AI implementation, process automation, React, TypeScript, Vite, Supabase, Git/GitHub, Vercel, SQL/API fundamentals, English/Spanish.

SELECTED IMPLEMENTATIONS

TurnOS

- Mobile-first workflow system built around real student-housing Turn work
- Unit and issue tracking, crew assignments, follow-up, daily logs, reporting, and exports
- Built and field-tested from firsthand operational pain points

CleanDay

- Residential cleaning business in Austin in development
- Developing tools for scheduling, crew coordination, and customer follow-up

PROFESSIONAL EXPERIENCE

Washaroo - Location Management & Business Operations

2026-Present

Support day-to-day management of an East Austin service-business location while working directly alongside ownership on operations and business decision-making. Develop hands-on experience across employee workflows, service execution, customer experience, sales procedures, inventory, SOPs, cash reconciliation, and operational reporting.

Property Doctor Services - Turn Supervisor

Summer 2026

Supervised paint and cleaning operations during a high-volume student-housing Turn spanning approximately 567 beds and 166 units. Coordinated crews, unit priorities, inspections, callbacks, and property-management communication, then built and field-tested TurnOS from firsthand operational pain points.

BallerTV - Site Lead, Live Event Operations

2024-Present

Lead tournament streaming operations across multiple courts and venues, coordinating equipment readiness, connectivity, scoring workflows, and live technical troubleshooting. Serve as an operational point of contact for tournament staff, coaches, parents, and event stakeholders.

EDUCATION & LEADERSHIP

Concordia University Texas - B.B.A. Business Administration & Marketing, expected December 2026 (online)

Bryant & Stratton College - Associate of Business Administration, GPA 3.7, Honors Society
