

Carlos Castro

AI-Native Operator | Workflow Systems Builder | Customer Success & Operations

Austin, Texas • los124506@gmail.com • (956) 251-0708 • Open to Relocation

Professional Summary

Business Administration and Marketing senior (expected December 2026) focused on helping businesses adopt AI through practical workflow design, operational systems, and customer-focused software. Experienced studying how real people work, identifying bottlenecks, and translating fragmented processes into structured systems that improve execution, visibility, and accountability. Builder of Boardroom/Cortex, an AI-native operating system designed to help businesses manage customers, leads, follow-ups, scheduling, payments, operational knowledge, and execution.

Core Skills

AI Operations • Customer Success • Product Support • Workflow Automation • Process Improvement • Implementation • Product Discovery • Stakeholder Communication • Documentation • Prompt Engineering • GitHub • Supabase • Vercel • SQL/API Fundamentals • Bilingual English/Spanish

AI & Operations Projects

Boardroom / Cortex OS — Founder & Builder (2026–Present)

Building an AI-native business operating system that helps small businesses organize customers, projects, communication, follow-ups, scheduling, payments, operational knowledge, and execution in one workspace. Approach projects by studying workflows, identifying friction, and building systems that make businesses easier to operate.

Mavrik Aircraft Services

Designing operational workflows for aircraft detailing and aviation service businesses, including customer intake, lead management, quoting, scheduling, service tracking, and customer communication.

Automotive Sales Operating System (In Development)

Developing AI-assisted workflows for automotive sales professionals focused on lead management, appointment tracking, follow-ups, customer notes, and pipeline visibility.

Water Restoration Operations Dashboard

Worked directly with a business owner to transform fragmented paper, phone, and text-message workflows into a centralized operations dashboard for job tracking, customer management, photo documentation, and follow-up execution.

Professional Experience

BallerTV — Site Lead, Live Event Operations (2024–Present)

Lead tournament streaming operations across multiple venues, coordinate equipment readiness, troubleshoot technical issues, and serve as a primary point of contact for coaches, parents, and tournament staff.

H-E-B — Cooking Connections Partner (2025–Present)

Conduct live product demonstrations, engage customers, handle objections, communicate product value, and execute customer-facing operations independently.

Vamos Coffee — Barista (2024)

Delivered high-quality customer service in a fast-paced environment while building repeat customer relationships through communication and consistency.

Education & Leadership

Concordia University Texas — B.B.A. Business Administration & Marketing (Expected Dec 2026)

Bryant & Stratton College — Associate of Business Administration • GPA 3.7 • Honors Society

Leadership: College Basketball Athlete (2022–2025) • Cross Mountain Church Student Leader (2023–2024)
